 - 2. Eternal influence - Prov 20:7
- G. Your _____ can be in the Book of Life - Rev 20:15; 21:27

PERSONAL APPLICATION

1. What do you know about your "Family Tree?" Are there any interesting stories or famous people in your genealogical line?
2. Esau's genealogy is a mere "blip" on the screen of life compared to Jacob's family line that eventually led to the birth of the Messiah. What small compromises did Esau make that sidelined him from God's eternal plan? [Hint: Heb 12:16-17] What small acts of compromise are you making that could have far-reaching effects on your future and the future of those in your family tree? What action will you take today to avoid Esau's example?
3. Of the various Lessons From Esau's Family Tree, which one is most important to you right now? Why? What practical steps will you take in response to what you have discovered?
4. Take a few minutes to write down how you think future genealogists might summarize your life. Then ask the Holy Spirit for power to live in such a way that those in your Family Tree will be able to look back on your life with gratitude for the godly heritage you have left for them to follow.
